## **EXECUTIVE SUMMARY FOR FINANCE DEPARTMENT May 2018**

### **INTRODUCTION**

The Financial Services Department experienced a very difficult period during the month under review. There is still a lack of Human Resources. The employment of staff has continued to be problematic during this month, with the Finance Department really under pressure due to a critical shortage of staff.

### **REVENUE**

Revenue received for the month of May is R27,1 million and for the year to date an amount of R471,8 million has been received. Rates are higher by 8% compared to budget. Government grants and subsidies, all tranches of the Equitable Share have been received, an amount of R1,7 million for the FMG, R34,2 million for MIG and R15 million for INEP has been received to date. The municipality is showing a surplus for the financial year to date which is due to the grant funding received but not yet spent.

### **EXPENDITURE**

Expenditure for the month of April is R37,3 million including payroll costs and for the year to date R320,2 million which is overall lower than budget. This is due to the provisions which are non-cash items as well as creditors not paid. The municipality is still continuing to spend more than the revenue being collected and there are creditors including Eskom that are still owed for services rendered.

As municipalities are a third tier of government and therefore closest to the communities, they are looked upon as the source of job creation, providers of housing, and service such a health, education, sport and recreation, agriculture, arts and culture as well as security. This places severe strain on the limited budget resources to provide services to the people to ensure their social and economic wellbeing is sustained. The municipality has concentrated on its core function which is to provide services such as water, electricity, sanitation and solid waste removal and to provide a service to all municipal departments. However, the provision of housing is also uppermost on the service delivery agenda.

## **CAPITAL EXPENDITURE AND FINANCING**

There has been expenditure of R31,5 million spent on fixed assets incurred to date which is mainly funded from Municipal Infrastructure Grant (MIG) and Department of Energy (DOE) grant funding. This represents under spending when compared to budget. No projects from own funding will be implemented until the cashflow of the municipality increases.

## **EXTERNAL LOANS, INVESTMENTS AND CASH**

The municipality holds a portfolio of investments to the value of R39,7 million, as well as a positive bank balance of R 6,1 million. The cashbook remains in a negative due to payments being made but not yet captured on the financial system. Consumer deposits of R 13,1 million which should be funded from investments and the current bank account. The municipality investments are low due to lack of cash flow due to the drought and loss of electricity. The municipality's grants are cash backed as the funds have been transferred to a call account.

## **DEBTORS**

Debtors' balances continue to increase which poses a challenge on the municipality's collection rate which is now sitting at 88,27% which is 0,6% more than April 2018. The difference in the collection rate is due to the new tariffs as the lower tariff rate is now implemented from October to May. Certain under developed areas have been identified for investigation of whether they are able to pay for services and whether the municipality is delivering adequate services in those areas. This is a focus area for the finance department and a lot of effort is being directed towards the collection of outstanding debts as well as reducing the debtors.

## **CREDITORS**

All creditors should be paid within 30 days of statement which is a MFMA requirement but due to the municipality being in financial distress this cannot be done timeously.

## **SUPPLY CHAIN MANAGEMENT**

A supply chain management report is recorded in the monthly report which details all tenders awarded over R100 k as well as all deviations for the month.

## **ANNUAL FINANCIAL STATEMENTS**

The Annual Financial Statements for 2016/2017 were prepared in the GRAP format and submitted to the Auditor-General by the 31<sup>st</sup> of August 2017.

## **STANDARD CHARTER OF ACCOUNTS (mSCOA)**

The municipality converted to mSCOA and started transacting on version 6.1 from the 1<sup>st</sup> of July 2017. There are problems that have been identified and Munsoft is working with the municipality to assist in solving all problems identified. The municipality managed to successfully upload the budget and IDP strings through the National Treasury portal. However, the budget now needs to be re-aligned to the IDP projects correctly and agree to the budget schedules adopted by Council.

## **MAY PERFORMANCE REPORT**

The May report included the preparation of monthly reports and reconciliations. Finalising and tabling the 2018/2019 budget and IDP.

## **JUNE PLAN**

The June activities include the preparation of monthly reports and reconciliations. Preparation of the financial year end as at 30 June 2018, including stock counts.

## **CONCLUSION**

The financial position of the municipality is no longer healthy. The negative economic challenges are hampering the growth which would enable the municipality to provide more service delivery projects. More focus needs to be directed toward revenue enhancing and revenue protection initiatives as well as debtor collection. The Finance department is closely monitoring expenditure in this financial year and ensuring the cost containment measures are strictly implemented and monitored and if necessary “nice-to-have”, non-essential item votes have been blocked.

**Regards**

**HAROON MAHOMED**  
**CHIEF FINANCIAL OFFICER**

## 1. **PURPOSE**

To comply with Section 71 of the MFMA, by the provision of an interim statement to the Mayor and EXCO containing certain financial particulars to achieve MFMA compliance.

## 2. **DELIBERATION/BACKGROUND**
