## INTRODUCTION

The Municipal Budget and Reporting Regulations (MBRR) are designed to achieve a range of objectives, including improving the local government sphere's ability to deliver basic services by facilitating improved financial sustainability and better medium-term planning and policy choices on service delivery.

This report has been prepared in terms of the following legislative framework:

- The Municipal Finance Management Act – No 56 of 2003, Section 72: and
- The Municipal Budget and Reporting Regulations, 35.

### Section 72 - Mid-year budget and performance assessment

- (1) The accounting officer of a municipality must by 25 January of each year-
  - (a) assess the performance of the municipality during the first half of the financial year, taking into account-
    - (i) the monthly statements referred to in section 71 for the first half of the financial year;
    - (ii) the municipality's service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
    - (iii) the past year's annual report, and progress on resolving problems identified in the annual report; and
    - (iv) the performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities; and
  - (b) submit a report on such assessment to-
    - (i) the mayor of the municipality;
    - (ii) the National treasury; and
    - (iii) the relevant provincial treasury.
- (2) The statement referred to in section 71(1) for the sixth month of a financial year may be incorporated into the report referred to in subsection (1) (b) of this section.
- (3) The accounting officer must, as part of the review-
  - (a) make recommendations as to whether an adjustment budget is necessary; and
  - (b) recommend revised projections for revenue and expenditure to the extent that this may be necessary

Section 33 of the MBRR states:

*"A mid-year budget and performance assessment of a municipality referred to in section 72 of the Act must be in the format specified in Schedule C and include all the required tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168(1) of the Act."*

The objective of these Regulations is to ensure sound and sustainable management of the budgeting and reporting practices of the municipality by establishing uniform norms and standards and other requirements for ensuring transparency, accountability and appropriate lines of responsibility in the budgeting and reporting process and other relevant matters as required by the Act.

Provincial Treasury will undertake an assessment of the 2021/22 Mid-Year Budget & Performance Assessment Report and intends visiting the municipality to engage on the report in terms of Provincial Treasury's oversight and monitoring role. For the visit the relevant role players of the municipality must be present which includes the Municipal Manager, CFO, Directors, the Manager responsible for Budgeting, planning and any technical experts on infrastructure. The municipality is also encouraged to invite the Budget Steering Committee or Finance Committee Chairperson as the councilor responsible for financial matters to be part of the presentation as per the guide attached to the Provincial Treasury Circular. The feedback report is required to be tabled back to Council and proof that it was tabled must be submitted to Provincial Treasury.

## MAYOR'S REPORT

2021/2022 Mid-Year Budget & Performance Assessment Report presentation by his worship the Mayor, Councillor MC Maphisa, at Abaqulusi Council Chambers, during January 2022

Mr Speaker, I wish to present an assessment of the Mid-Year Budget & Performance for the 2021/2022 budget year. This document is prepared in terms of the Municipal Budget and Reporting Regulations. It serves as a mechanism which seeks to review the progress made in realizing the targets the municipality set itself at the beginning of the financial year.

With the tabling and approval of the 2021/2022 budget, a strong focus was placed on Service Delivery and fighting poverty.

The overview of financial performance, challenges and risks for the period 1 July to 31 December 2021 are:

- Total operating revenue received to date is R348,1 million which is 4% more than the budgeted target of R334,7 million. This additional income is due to the 1<sup>st</sup> and 2<sup>nd</sup> tranches of Equitable Share having been received.
- The collection rate has fluctuated during the 1<sup>st</sup> 6 months of the financial year from 59,54% in July to 111,65% in December, averaging 86,86% for the 6 months. This together with Covid is continuing to have a negative effect on the cashflow of the municipality because in previous financial years the norm has been 90%.
- When comparing the billed service rates and comparing to the previous financial year:
  - Electricity in 2020/21 was 5% below targeted budget and in 2021/22 the billed amount is 1,29% more than the estimated budget.
  - Water in 2020/21 was 16% above targeted budget and in 2021/22 the actual is 7,54% above the estimated budget.
  - Sanitation in 2020/21 was 18% above targeted budget and in 2021/22 is 8% above the estimated budget
  - Refuse in 2020/21 was 7% above than the estimated budget and in 2021/22 is 7,98% above the estimated budget
- An analysis of the losses was carried out during the 1<sup>st</sup> half of 2021/22 and a report was submitted identifying the areas and during the Adjustment Budget these areas will be addressed. In total for the 6 months the electricity losses have unfortunately increased percentage wise to 25,84% compared to 22,69% in the previous financial year, however in rand value the loss in 2020/21 was R18,4 million for the 6 months and for the 2021/22 also amounts to R18,4 million. Water losses have decreased from 71,78% to 43,68% which is due to faulty, broken and stolen water meters being replaced.
- Operating expenditure is less than budget with expenditure to date of R285,4 million compared to a budget of R310,9 million.
- Whilst the municipality has collected/billed more revenue (R348,1 million) and only spent R285,4 million which can be seen as good news from a financial perspective, the challenge remains in ensuring expenditure is further reduced as much as possible on nice-to-have but not to the detriment of service delivery, but to stabilize the cash flow position of the municipality and to ensure all outstanding payments to creditors are paid.

Mr Speaker, based on the findings of this report, adjustments need to be made in the adjustment budget. I recommend to Council that an adjustment budget be tabled to address the variances as well as the additional grant funding the municipality will be receiving.

## **RESOLUTIONS**

### **It is resolved and noted**

- That, in compliance with Section 72 of the MFMA, the financial results regarding the operating and capital budgets for the first half of the 2021/2022 financial year, and supporting documents as required by National Treasury, is submitted to Council; and
- In order to comply, this report be submitted to the National Treasury and the relevant Provincial Treasury within five days of tabling of the report in the council, in both a Council approved document and in electronic format; and
- It is recommended that an adjustment budget be prepared to recommend revised projections for revenue and expenditure where necessary

## **EXECUTIVE SUMMARY**

This report is a summary of the main budget issues arising from the monitoring process. It compares the progress of the budget to the projections contained in the Service Delivery and Budget Implementation Plan (SDBIP).

The following categories provide a consolidated overview of the implementation of the budget of the municipality.

### **Operating Revenue**

It should be noted that the figures for property rates and service charges relates to billed income and not cash collected.

The following table is a summary of the 2021/2022 budget classified by main revenue source

Revenue generated from property rates and service charges forms a significant percentage of the revenue source of the municipality. The above table excludes revenue foregone arising from discounts and rebates associated with the tariff policies of the municipality.

The approved operating revenue budget amounts to R613,9 million. For the period under review the planned SDBIP target is R334,7 million and the actual revenue collected to date is R348,1 million. When comparing the planned against the actual revenue there is a 4% over performance shown. This is mainly due to the 1<sup>st</sup> and 2<sup>nd</sup> tranche of Equitable Share having been received as well as 85% of the MIG and 100% of the INEP grants. The full grant funding for Arts & Culture (Library) and the Finance Management Grant has been received. The estimation of the expected revenue will be addressed in the Adjustment Budget.

**Reasons for major variances between planned and actual revenue collected:**

- revenue billed for rates is 22,72% above the planned projection and in the previous year the projection was 23% more than the planned projection, the payment rate is 4,79% more than the planned projection
- revenue billed for electricity sales is 2,6% more than the planned projection and in the previous financial year the sales were 5% less than the planned projection, the payment rate is 17,91% less than the planned projection
- revenue billed for water sales is 15,08% above the planned projection compared to the 16% above the planned projection in the previous financial year, the payment rate is 25,16% less than the planned projection
- revenue billed for sanitation sales is 16% above the planned projection compared to 17,63% above the planned projection in the previous financial year, the payment rate is 23,06% less than the planned projection
- revenue billed for refuse sales is 15,98% above the planned projection compared to 7% above the planned projection in the previous financial year, the payment rate is 21,89% less than the planned projection
- overall billed revenue from the 4 trading services is 0,69% (R2,1 million) less than the projected budget, however the payment rate is 21,15% (R66,1 million) less than planned projection which is a fair indication that the community is struggling to pay for services
- the collection of fines is less than the planned projection, this collection rate similar to the payment for services has been severely hampered by Covid
- revenue from service charges for free services has not been impacted as severely as in the past as all indigent applications had to reapply for the 2021/2022 financial year.
- revenue from investments is less than budget, this is due to no additional revenue being available to invest
- revenue from Development Planning for building plan fees is less than the budgeted amount
- Revenue from Community Services department is less than was budgeted for
- It must also be noted that the half year income reflects the second tranche of the equitable share which must be carried over into next quarter. This inflates the six-month Income figure as shown above
- The impact of Covid is impacting on the revenue of the municipality

The municipality is still expected to deliver services in an area which is growing with fewer funds to do so.

The major operating revenue variances against budget to date are:

- Property rates including penalties and collection charges – R 9,4 million more than budget
- Service charges – R 2,1 million more than budget
- Government Grants and subsidies – Operating – no additional equitable share allocated by National Treasury to local municipalities, the 2<sup>nd</sup> tranche of the equitable share was received
- Government Grants and subsidies – Capital – no additional funding allocated
- Other Income – R218 thousand less than budget

The Directors and Managers are playing their oversight on their budgets and monitoring their spending as advised monthly by the Finance Department, the only major concern is the lack of adhering to the cost containment measures and this is going to result in Finance again having to block non-essential projects to try and limit spending. This will hamper service delivery in the second half of the year and result in no additional funding being made available.

The 2021/22 Evaluation Report was used during the preparation of the report

The approved operating expenditure budget amounts to R613,5 million, including the non-cash items. For the period under review the planned SDBIP target is R310,9 million and the actual expenditure to date is R 285,4 million. When comparing the planned against the actual expenditure there is only an 8% (R25,5 million) underspending.

**Reasons for major expenditure variance variances against budget are:**

- Employee costs – R 7,8 million less than budget. Overtime costs is more than in the previous financial year with expenditure for the year to date of R6,843,654.04 (six million, eight hundred & forty three thousand, six hundred & fifty four rand) which is R3,002,742.34 more than the previous financial year and the projected amount for the year is R13,6 million.
- Repairs and Maintenance (other materials) – R4,8 million less than budget, despite the extensive and ongoing repairs to water and sanitation infrastructure
- Bulk purchases – to date Eskom has been paid R102,8 million
- General expenses – R17,6 million has been spent to date which is R3,5 million more than budget
- Contract payments – R53,6 million has been spent to date which is R9,6 million more than budget

The approved capital budget amounts to R44,9 million. For the period under review the planned SDBIP target is R27,9 million and the actual expenditure to date is R14,9 million. When comparing the planned against the actual expenditure, an under performance is shown.

Capital from own funding was budgeted to start in the 3<sup>rd</sup> quarter depending on the cashflow constraints that the municipality is currently experiencing.

**Reason for major variance of year-to-date capital expenditure, compared to departmental Service Delivery Budget Implementation Plans (SDBIP) targets for the municipal vote is mainly due to cashflow constraints:**

- Electricity Reticulation – repairs to Cross Roads Substation
- Electricity Reticulation – Lighting not yet advertised due to cash flow constraints
- Water Reservoirs & Reticulation – replacement of water pipes in eMondlo to control leaks
- Community Services – equipment for halls
- Public Safety – Relief equipment not yet advertised due to cash flow constraints
- Funds were allocated to small capital items funded from the operating budget for computers
- Capital program for MIG is ongoing
- Electrification of Eskom areas is ongoing and is no longer shown as capital due to the asset being transferred back to Eskom when the electrification is complete

## Capital funding by source

								38 928 44 908

Borrowings – own resources need to be accumulated before capital projects are embarked upon. Due to the impact of the growth in external funding on the operating budget the municipality currently enters into finance leases for the acquisition of new vehicles rather than rely on external funding to fund the capital budget.

The fact that the municipality is experiencing on-going cash flow challenges is highlighted and needs to be taken into account when approval is considered for specific initiatives. Departments continue to bypass the CFO for financial input for certain projects and this is impacting on the reprioritizing of funds during the Adjustment Budget due to the shortfall.

### **Other Financial Issues**

This executive report continues to highlight the performance achievement of the Finance Department during the first half of the financial year, taking into account:

- i. The targets set in the service delivery and business delivery

The main strategic goals during the 2021/2022 as set out in the business plan and reported in the performance report were for the following:

- The optimization of revenue collection by using incentives to encourage payments, increasing the number of payment methods, increasing the billing coverage and vigorously implementing the credit control policy and bylaws through effective implementation of the existing legal processes.
- Increasing the number of paying consumers by improving better communication and better relationships with consumers.
- Reduction of costs through reduction in physical and bulk losses.
- Improve service delivery to community through best practices.
- Reduction and/or control of expenditures mainly through the control of overhead costs by utilizing effective systems (blocking votes on the financial system)
- Alignment of structure with organizational strategy.
- Counteract wasteful water and electricity practices through education and awareness campaigns.
- Raising the level of awareness of consumers about hygiene and environmental health in compliance with regulatory requirements.
- Continual development of the required strategic skills from managerial levels to lower levels.
- Identify and manage operational and financial risks within the existing regulatory framework/environment.
- Manage and maintain an effective and efficient network system within the total Abaqulusi area.
